

MICRAMIN[®]

BORON

GENERAL INFORMATION

Micramin[®] Boron is a concentrated aqueous solution of Boron, 18 Amino Acids, Fulvic Acid and Kelp Extract. It is designed for addition to fluid fertilizers and will provide a highly soluble fertilizer that can be applied via aerial and ground applications.

Micramin[®] Boron is very effective as a foliar spray to prevent and correct boron deficiencies on fruit and other crops. It is **IMPORTANT** that a non-ionic surfactant be added to aid in surface coverage which helps leaf absorption

DIRECTIONS FOR USE

Foliar: Micramin[®] Boron will disperse in water with minimum agitation, follow the mix sequence:

1. Water
2. Micramin[®] Boron
3. Pesticide – Min. GPA: 10 ground, 5 air

Fluid Fertilizer Mfg.:

Micramin[®] Boron does not require premixing before addition to fertilizer. When mixing in a batch tank, add to water or nitrogen solution before adding phosphate material. Mix thoroughly.

RECOMMENDED RATES

IMPORTANT: Always get specific boron recommendations from your extension service or consultant before applying boron. Excessive amounts of boron may cause damage.

Micramin[®] Boron is recommended at these suggested rates:

- Side-Dress Applications 16-32 oz per acre
- Foliar Applications 4-16 oz per acre

Repeat applications to meet the requirements suggested by your local crop consultant or extension agent.

GUARANTEED ANALYSIS

Boron (B) 9.00%

Derived from: Boric Acid

Contains Non-Plant Food Ingredients:

8% Amino Acid blend, 1.00% Fulvic Acid and 1% Seaweed Extract

WARNING: Harmful if swallowed. May be harmful in contact with skin. Causes serious eye irritation. Causes skin irritation. May be harmful if inhaled. May cause damage to organs (central nervous system) through prolonged use or repeated exposure (via inhalation).

WHAT TO DO IN CASE OF CONTACT

Eye: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation persists. **Skin:** Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if irritation develops. **Inhalation:** Move to fresh air. Obtain medical attention if irritation develops. **Ingestion:** Drink large volumes of water. Call a physician or poison control center. **Indication of Immediate Medical Attention and Special Treatment Needed:** In the event of an adverse response, treatment should be directed toward control of the symptoms and the clinical condition of the patient.
